***EXAMINER'S AMENDMENT***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jonathan David on December 7, 2004.

The application has been amended as follows:

Claim 13, line 3, after "execute", delete "the".

Claim 13, line 5, "obtaining the coordinates of a line defined by the dragging" should be changed to -- obtaining coordinates of a line defined by dragging--

Claim 13, line 8, after "the display window to form", delete "a".

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

The Examiner has carefully considered the independent claims 1-2, 8-9, 13-15 and 18. The "method" and "system" for controlling a computer system to perform a method of splitting a display window" as claimed was not taught or suggested by the prior arts. The independent claims, when considered as a whole, are allowable over the prior art of record. Specially, none of the references teach or suggest means for splitting a display window on a display by dragging a mouse from a begin point in the display to an end point

in the display which mean responsive to said mouse dragging to split said display window into two separate split display windows, each of said split display windows having a newly-formed shared edge substantially aligned with a line that would pass through said begin and end points. Using a splitter window has the advantage of keeping the two displays in the same relative position no matter what happens to the entire window.

The prior arts made of record and not relied upon are considered pertinent to applicant's disclosure. These are cited as relevant to the application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
